

Please reconsider the LPFM broadcast service being given any priority over FM signals. The K-LOVE station, broadcast on FM, provides a program that a parent can allow a child to listen to without fear of exposing the child to foul language or improper insinuations. Losing that station will take away an important tool for parents in the difficult struggle to our kids moral and out of trouble with drugs and alcohol. It's a nearly impossible job already--please don't make it harder!
